About Omai Gold Mines Corp.

Omai Gold Mines Corp., through its wholly owned subsidiary Avalon Gold Exploration Inc., holds a 100% interest in the Omai Prospecting License covering 4,590 acres, that includes the past producing Omai gold mine. Once South America's largest producing gold mine, Omai produced over 3.8 million ounces of gold between 1992 and 2007. Mining ceased at a time when the average gold price was less than US\$350 per ounce, leaving significant drilled resources untapped. The Company's short-term priorities are to verify and expand the known resources, while advancing exploration on nearby targets, providing a solid opportunity to create significant value for all stakeholders.
